### Artwork Types:

Submissions may include traditional visual art forms such as painting, drawing, or mixed media, as well as photography. Artists are invited to express their unique perspective on the theme 'Women of Ohio,' embracing creativity and diversity in all forms. We have chosen these mediums for a few reasons:

- **Accessibility and Manageability:** Given limited resources, we've chosen to focus on Visual Art (Painting, Drawing, Mixed Media) and Photography, as these mediums allow us to showcase a variety of artistic expression and keep the competition manageable.
  - **Diversity of Expression:** By focusing on these mediums, we aim to highlight a diverse range of creative approaches, from traditional artistry to the contemporary lens of photography, all within the context of celebrating the experiences of women in Ohio.
  - **Inclusivity:** We want to ensure that the competition remains open to a wide range of participants, whether they're experienced in traditional visual arts or using photography to tell their story. This approach gives a broad opportunity for expression within the competition's scope.
-
